

Diolch fôr

Ceredigion community film

We invite you to take part in a short community film, sharing love for our local seas and rivers, inspired by 'Thank you Sea' by Surfers Against Sewage.

To take part:

- Share a photo, or a short video (15 seconds max) that captures a personal experience of the sea or a river in Ceredigion – this could be an activity, a beautiful moment, in or by the water.
- We encourage media that includes local landmarks and showcases Ceredigion across our coast.
- You could include an action against pollution in your photo/footage, e.g. beach clean/picking up dog poo/noticing a problem.
- Please include a 1-sentence written caption/quote to describe this moment.
- We welcome contributions in English or in Welsh
- All contributions must be non-political.

By sharing your footage, you agree for it to be used in our community film
